

COSTING GROUP MEETING EVALUATION (HRT1302B)

Brisbane 7-8 March 2013

The Clinical Costing group met in Brisbane on 7-8 March to review data for the 2011/12 financial year and plan for the current financial year. For the first time, we provided separate reports for Emergency presentations and ambulatory care activity in addition to inpatient costing. James Downie, from IHPA, provided a keynote speech outlining the pricing program for the 2013/14 financial year. The evaluations from the meeting were very positive, with 100% of the respondents agreeing that the meeting met their expectations, that the data reports were useful, that they received professional support from the Roundtable team, and that the guest speakers were useful. The only negative amongst the evaluations was a concern about the venue and audio quality from several respondents. These are being reviewed with the hotel (Novotel Brisbane).

General suggestions on how to improve the next meeting:

I'll be interested to know how some states are going to transcend to the national model when they appear (to varying degrees) to be significantly deviated from it. Is anyone asking why we are not transitioning straight over now?

Chilled/ice water not luke warm tap water

Different venue with free WIFI with no restrictions, better food, PC's not Apple, Bigger projection screen
